Lotus™ Modernization Solutions

Alliance can Automatically Modernize your Lotus Applications to the Cloud

Many companies have a large number of mission critical Lotus Notes/Domino applications they want to modernize - but to date, there have been no cost-effective migration paths available.

Lotus Notes® and Domino® is one of the most prolific application platforms in the world, with more than 10 million enterprise applications built on it since the early 1990s.

The latest releases of Lotus Notes and Domino offer unprecedented benefits, and along with the new Evolution Transformer® as Service platform, the future has never been so bright.

Now you can take Full Advantage of the Newest Releases of Lotus Notes and Domino without having to Invest in Major Rewrite or Development Projects

Extend your Lotus Investments into the Cloud and Future

A patent-pending Evolution™ Transformer software as a service platform provides you a fast and cost-effective way to modernize your entire Domino application portfolio. Our platform as a service solution automates the conversion of applications to XPages delivering a modern user experience as well as transforming existing business logic.

Alliance Technology Group and our Partner Affiliates are the World's #1 Provider of Lotus Business Software and Services
